Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The Examiner has considered the information disclosure statement (IDS) submitted on 8/2/06 and 6/14/07.

Allowable Subject Matter

3. Claims 11-28 are allowed over the cited prior art.
4. The following is an examiner's statement of reasons for allowance: None of the prior art of record disclose or teach a device for equalizing a charge of serially connected capacitors with a first voltage comparator having an inverting input connected to said emitter/source terminal of said switching transistor and to the first terminal of the first resistor, an output, and a non-inverting input receiving a first reference voltage, a first AND element having an output connected to the base/gate terminal of the switching transistor, first input receiving an external control signal, and a second input, a second AND element having an output connected to the second input of the first AND element, a first input connected to the output of the first voltage comparator and a second input, a second voltage comparator having an inverting input connected to a connection point between the first diode and the second resistor, a non-inverting input receiving the reference voltage, and an output connected to the second input of the second AND element and a monitoring unit having a first input connected to the output of said first voltage comparator, a second input connected to said output of
